

CONGRATULATORY MESSAGE

Graduation is a supreme milestone in any career. It is the culmination of an academic journey of unflinching commitment, sacrifice of self and loved ones, unrelenting pursuit of knowledge and an affirmation of one's intellectual prowess. Such a crowning moment in your life must be celebrated with pride and joy.

For us, graduation is the highlight of the University calendar as we witness successful students cross the stage to be capped and enter a new chapter in their lives. Each of you has a unique story to tell and an exciting journey ahead.

We salute and applaud your achievement and wish you all the best in your future endeavours.

We trust that Nelson Mandela University has equipped you with both an excellent academic qualification and the solid values of our namesake to undergird all your actions for the many challenges of life and work to come.

It is our wish that you will leave here today as proud Nelson Mandela University graduates who will continue to champion social justice and equality, and be change agents in building a better society and a better world.

Thank you for offering us the privilege of making this University a part of your life. Your success is our success, and as Nelson Mandela University alumni, we look forward to watching your story unfold.

Congratulations!

Ms Santie Botha

Prof Derrick Swartz
Vice-Chancellor

ABOUT NELSON MANDELA UNIVERSITY

Nelson Mandela University is a new generation university, distinguished by a wide range of study options and access routes open to students. With 470 programmes from certificate through to doctoral level across 200 different career fields, Nelson Mandela University truly is a comprehensive university.

Founded on more than a century of quality higher education, Nelson Mandela University nurtures innovation, fosters creativity, embraces technology and develops people towards changing the world for the better. The University was previously known as Nelson Mandela Metropolitan University (NMMU), but on 21 July 2017 it was officially re-launched as Nelson Mandela University – the only university in the world to have been given this privilege. Our alumni also come from the University of Port Elizabeth, the Port Elizabeth Technikon and Port Elizabeth campus of Vista University, as these three institutions were combined to form NMMU in 2005.

The University has a strong record of research, working extensively in partnership with business and industry, and has an even more exciting future ahead of it, especially in terms of its contribution to the socio-economic development of the metro, region, country and continent of Africa.

This is due, among other new and growing ventures, to Nelson Mandela University's bold journey towards becoming the leading destination for all Ocean Sciences postgraduate teaching, learning, research and engagement in Africa with the launch of its dedicated Campus in September 2017.

Our campuses

The launch of the Ocean Sciences Campus means Nelson Mandela University now has seven campuses and about 27 000 students.

Six of Nelson Mandela University's campuses are in Nelson Mandela Bay and one is in George on the Garden Route. The seven campuses are:

South Campus in Summerstrand (within a 720-hectare private nature reserve)

North Campus in Summerstrand

Ocean Sciences Campus, adjacent to North and South campuses in Summerstrand

Second Avenue Campus, home to our "green" Business School, in Summerstrand

Bird Street Campus, a growing postgraduate arts hub in Central

Missionvale Campus in Missionvale

George Campus in George

Facilities and supportive teaching and learning environment

Nelson Mandela University is privileged to have outstanding facilities. All students have access to well-equipped laboratories, some of which are open 24/7, and free Wi-Fi throughout all its campuses. All lecture halls are equipped with the latest technology and students have the opportunity of using additional e-learning tools online. The campus libraries and information services network offers a state-of-the-art integrated online system. There are cafeterias, food courts and coffee shops.

A range of opportunities is provided to enhance the academic success of students. These include a first-year orientation programme, peer-facilitated learning opportunities (e.g. Supplemental Instruction, e-PAL, tutorials, practicals, mentor programmes, 'Keys to Success' workshops and online resources). The University also promotes learning and development beyond the classroom towards enhancing holistic student development. To recognise this learning, Nelson Mandela University has developed an innovative, electronic co-curricular record system. This record complements the students' academic record.

The University also offers the finest sporting facilities in the Eastern Cape and numerous venues for conferences, meetings and other special events.

Faculties

Nelson Mandela University has seven faculties. They are:

Arts

Business and Economic Sciences

Education

Engineering, the Built Environment and Information Technology

Health Sciences

Law

Science

Academic focus areas

Though the University prides itself on its vast range of programme offerings, it has a number of strategic areas in terms of its core business of teaching and learning, research and engagement. These are:

- Health and wellness
- Economic and business development with a focus on job creation and entrepreneurship
- Materials and process development for industry and manufacturing
- Emerging information and communications technology for development
- Environmental and natural resource management
- Culture, communication and language
- Leadership, governance, democracy and justice
- Educational development in support of excellence in teaching, learning and curriculum
- Infrastructure and human settlement development

Strategic research areas

- Biodiversity conservation and restoration
- Coastal marine and shallow water ecosystems
- Cyber citizenship
- Democratisation, conflict and poverty
- Earth Stewardship Science
- Health and wellbeing
- Humanising pedagogies
- Manufacturing technology and engineering
- Nanoscale characterisation and development of strategic materials
- Science, Mathematics and Technology Education for Society
- Strategic energy technologies
- Sustainable human settlement development and management
- Sustainable local economic development

Research and Engagement entities

Nelson Mandela University has more than 30 focused institutes, centres and units that exist over and above the formal academic structures. These are aimed at promoting research, technology transfer and innovation. They include the likes of InnoVenton, the University's go-getting Institute for Chemical Technology and Downstream Chemicals; eNtsa, an institute that focuses on seeking solutions through engineering; Earth Stewardship Science Research Institute (ESSRI); and the Institute for Coastal and Marine Research. Many are award-winning entities. The University also has many more engagement institutes, centres and units and two clinics serving society in various initiatives. Its mobile Zanemphilo health platform, for example, serves both indigent communities and its Health Sciences students with practical experience. The latter forms part of the growing Interprofessional Education (IPE) that will undergird the University's Health Science qualifications as it moves towards the formalisation of its Medical School.

'Green' endeavours

In line with its value of respect for the natural environment, Nelson Mandela University is involved in a large number of "green" initiatives that will not only reduce its own carbon footprint but is also assisting others in seeking renewable energy resource solutions. The University's Business School, for example, was the first in the country to be awarded four-star "green" accreditation for a public and education building by the Green Building Council of South Africa in 2013. The "green" agenda is supported by the Centre for Renewable Energy, which is recognised as a research leader in the field, and the University's overriding strategic priority towards all-round environmental economic and environmental sustainability.

International links

About 8% of the University's student body comes from 84 different countries outside of South Africa. The Office for International Education fosters relationships and manages inter-institutional linkages to enrich both Nelson Mandela University staff and students. These partnerships also foster our growing research.

Reasons to be proud:

Nelson Mandela University is the only University in the world to be named after the global icon Nelson Mandela. Nelson Mandela University's diversity and multiculturalism. Our African students come from 32 countries on the continent.

The Centre for High Resolution Transmission Electron Microscopy (CHRTEM) is the only place in Africa where scientists can view atoms in line with the University's growing prominence for nanoscience.

The University was chosen to host the country's 10th Medical School, and hopes to welcome its first cohort of medical students from 2020.

43% of our academic staff have doctoral degrees, which is above the national average.

New infrastructure like the second iconic Engineering Block on North Campus, the High Performance Complex complete with a 100m research sprint track, and the Science Building on South Campus.

The University has the only dedicated Ocean Sciences Campus in South Africa and is working together across disciplines – from the Arts through to Zoology – to find innovative, sustainably solutions in growing the country's blue economy.

Nelson Mandela University has excellent links with industry and business, particularly within the pharmacy, tourism, the automotive industries and now with all Ocean Sciences-related partners.

Nelson Mandela University's ongoing education partnership of ten years with Fifa, as one of only two presenters in Africa of an international sports management programme through the Centre International d'Etude du Sport (CIES).

In 2012 the University was selected to facilitate the country's first electric e-mobility programme and technical centre, called the uYilo e-mobility programme.

The University has extensive expertise within the field of friction processing which has resulted in numerous national awards for the patented technology, WeldCore®. This technology has saved industry vast sums of money.

Nelson Mandela University's accounting and pharmacy students who continue to produce top results in their national external examinations.

The University's international award-winning choir which continues to perform around the globe to wide acclaim.

ACADEMIC DRESS

Special academic attire was designed for office-bearers at Nelson Mandela University to be worn at prestigious academic events like graduation.

Each outfit – from that of the Chancellor and Vice-Chancellor to those of the Executive Deans – has been meticulously selected to signify a particular office; this is a tradition that is consistent with leading universities throughout the world.

The gowns, caps and hoods of Nelson Mandela University graduates were similarly inspired and are explained in detail below.

Academic dress for graduates at Nelson Mandela University is as follows:

Doctoral degrees

Gown: Cardinal red polyester cashmere gown with long pointed sleeves pleated up with blue cord and button and lined with blue satin with 125mm facings and a blue collar.

1997	Baccalaureus Technologiae (Environmental Health)	PE Technikon
2004	Magister Artium in Health and Welfare Management	Nelson Mandela Metropolitan University

Thesis:

THE IMPACT OF AMBIENT – AIR POLLUTION ON HUMAN HEALTH IN THE NELSON MANDELA BAY MUNICIPALITY

In the Nelson Mandela Bay Municipality area, a number of sources releases polluted air into the atmosphere, which may influence inhabitants' respiratory health. The candidate compiled an emission inventory of sources, which he compared to meteorological data from weather stations in the research area. Using the data he determined the contribution of each emission source to the ambient air pollution in the Bay and how the air is dispersed. The candidate compared these air plumes to the respiratory health of patients who attended primary health care clinics to determine how many patients presented with health problems. He then developed an instrument to assess how local authorities could determine the influence of air pollution in their areas and the effect it may have on the local population.

2011	MA (Public Administration)	Nelson Mandela Metropolitan University

Thesis:

A CRITICAL REVIEW OF THE LOW-COST HOUSING POLICY IN SOUTH AFRICA: A MULTI CASE STUDY

The provision of sustainable human settlements has been at the core of the democratic dispensation for a number of years. The main aim of the study was to critically review the state of low-cost housing provisioning in South Africa following the introduction of the 2004, "Breaking New Grounds" approach to human settlements. The study was based on three case studies in the Nelson Mandela Bay, Plettenberg Bay and Springfontein. The study has shown that poverty and unemployment have a negative impact on the provision of sustainable human settlements in South Africa. The challenges associated with the Reconstruction and Development Project (RDP) continue to be experienced by the beneficiaries of the housing in terms of both the spatial and quality dimensions.

THE DEGREE OF DOCTOR OF PHILOSOPHY (MEDIA STUDIES)

JANELLE LEIGH VERMAAK

Previous qualifications:

2004 BA Media, Communication and Culture
2007 MA Applied Media Studies

Thesis:

FANS OF FILM FRANCHISES – THE ONLINE ALIEN UNIVERSE: A STUDY OF ONLINE PARTICIPATION AS A CATALYST FOR FAN-CREATED OBJECTS THAT EXPAND THE FILM UNIVERSE

This study analyses the manner in which fans interact with the *Alien* film franchise and how this interaction leads to the creation of fan objects. This doctoral analysis adds meaningfully to existing literature on audience findings and discussions relating to fans of the *Alien* film franchise, and contributes to the understanding of these fans' merchandise collecting practices. This thesis also includes a large amount of useful data about fans of the *Alien* franchise and their interaction with the film franchise.

VISION, MISSION, VALUES, EDUCATIONAL PURPOSE AND PHILOSOPHY

VISION

To be a dynamic African university, recognised for its leadership in generating cutting-edge knowledge for a sustainable future.

MISSION

To offer a diverse range of life-changing educational experiences for a better world.

To achieve our vision and mission, we will ensure that:

- Our values inform and define our institutional ethos and distinctive educational purpose and philosophy.
- We are committed to promoting equity of access and opportunities so as to give students the best chance of success in their pursuit of lifelong learning and diverse educational goals.
- We provide a vibrant, stimulating and richly diverse environment that enables staff and students to reach their full potential.
- We develop graduates and diplomates to be responsible global citizens capable of critical reasoning, innovation, and adaptability.
- We create and sustain an environment that encourages and supports a vibrant research, scholarship and innovation culture.
- We engage in mutually beneficial partnerships locally, nationally and globally to enhance social, economic, and ecological sustainability.

VALUES

- Diversity
- Excellence
- Ubuntu
- Social justice and equality
- Integrity
- Environmental stewardship

EDUCATIONAL PURPOSE AND PHILOSOPHY

- We provide transformational leadership in the service of society through our teaching and learning, research and engagement activities.
To achieve this we are committed to developing the human potential of our staff and students in the full spectrum of its cognitive, economic, social, cultural, aesthetic and personal dimensions in the pursuit of democratic citizenship.
- We adopt a humanising pedagogical approach that respects and acknowledges diverse knowledge traditions and engages them in critical dialogue in order to nurture a participative approach to problem-posing and -solving, and the ability to contribute to a multi-cultural society.
- We inspire our stakeholders to be passionate about and respectful of an ecologically diverse and sustainable natural environment.
- We will be known for our people-centred, caring, values-driven organisational culture that will allow all members of the university community to contribute optimally to its life.

CONGRATULATORY MESSAGE FROM THE ALUMNI ASSOCIATION

Congratulations on your academic achievement! Welcome to the Nelson Mandela University family. You are now a Nelson Mandela University alumnus.

We would like to take this opportunity to introduce you to the Nelson Mandela University Alumni Association. Once you have obtained your Nelson Mandela University certificate, diploma or degree you become an alumnus of the University and a member of the Nelson Mandela University Alumni Association. The Association is recognised by the University Council as a structure of the University. The Association supports and enhances the realisation of the University's vision and mission through maintaining and expanding positive relationships with its members.

The role of the Alumni Association Office

The Alumni Association Office is a public relations and projects department responsible for the day-to-day management and running of the Alumni Association, the University Shop and all matters related to alumni engagement. Primarily, we build relationships and maintain strong links with graduates, parents, friends and supporters of the University through events, networks, services, communications and community engagement.

The role of Nelson Mandela University Graduate

We encourage you to attend the alumni engagement events, be an active alumni ambassador, support your alma mater in a variety of ways including sharing news, expertise, skills, and contributions in cash and kind. We encourage a culture of giving back especially for student bursaries, which can be accessed on our alumni website.
